## IRRIGATION PROGRAM

- All properties in the City of Astoria with at least 500 square feet of space used for lawn/garden area are hereby given the privilege (option) of using City water for the purpose of irrigation. As meters are read on a two month cycle, the adjustment will be calculated according to the schedule below. An application may be made to the City Water/Sewer Clerk to receive this adjustment. Once an application is accepted by the Finance Department, it will remain in effect until either the property owner requests to have the adjustment removed or the account is closed. Adjustments will be made from the date of the application forward.
- The charge for irrigation water used shall be the same as other water; however, there will be no sewer fee charged for the water used for irrigation.
- Water used for irrigation purposes shall be determined in the following manner: an average shall be taken of the amount of water used by the premises during the three bi-monthly billing periods preceding the irrigation period. Any water used during the irrigation period in excess of this average shall not be assessed a sewer fee.
