

**City of Astoria**  
**11<sup>th</sup> St CSO Separation Project**

**PROJECT UPDATE**

Construction of the City of Astoria's 11th Street CSO Separation project was substantially complete in December 2013. Since that time the contractor, Tapani, Inc., has been working on completing final punch list items that include corrective work and unfinished tasks. It is anticipated that all items of work will be completed by June.

As part of this effort, Tapani will be doing paving adjustments and necessary sidewalk replacement at the intersection of 8th St and Franklin. This work is scheduled to begin on Monday and could take up to two weeks to complete. During this time 8th St will be closed between Franklin and Grand. The intersection of 8th St and Franklin will be closed during active construction then reopened in the evening and on weekends.

Please contact me if you have any questions or concerns.

Sincerely,  
Cindy
